ABOUT ME

- Focused and enthusiastic developer with a keen interest in web development and software development. By comprehensive exposure to the underlying concepts and applying them vividly to various projects, my love for these domains came into being. I am a passionate individual who thrives to build and apply algorithms to solve real-world industry problems.
- I have recently started start-up “Sanjeev Foundation which is a online classroom program with an aim to transform the future of learning. This website provides integration of courses where one can find all courses under one roof.
- Currently, we have 57 students who joined our company for learning coding in my organization. And also got many more projects within in a year, nearly 4 projects, have been done. These are done in 2020.
- Recently I have started with another start up “Sanjeev Solutions” in 2021 for designing web applications for business and commercial purposes and also working as a freelancer for some online projects.
- I am thrilled to announce that I have been SELECTED BY HCL from **M S RAMAIAH UNIVERSITY OF APPLIED SCIENCES** and have received a job offer of INR 6,00,000. While my current role is in embedded C development, I am highly motivated to transition into a full stack developer role and am open to exploring opportunities with other companies that can offer me this career path. I am well-versed in both front-end and back-end technologies, including the MERN stack (MongoDB, ExpressJS, ReactJS, and NodeJS).
- **SANJEEV FOUNDATION (E-Learning and Software Solutions)** (ums ajay)
Bellary, INDIA **CEO Founder**
Sanjeev foundation is a online classroom program with an aim to transform the future of learning ,This website provides integration of courses where one can find all courses under one roof . This website is designed using technologies such as HTML, CSS, JS, JQUERY, BOOTSTRAP .
